# Astrology and the Art of Loving Yourself and Others

Presented by Kamma Bothe

October 29 – November 5, 2017

Astrology has fascinated people for thousands of years and is experiencing a certain renaissance again today. It gives insight into human nature, aiding self-discovery and personal growth. This powerful tool, as many have discovered, can reveal the depths of your personality, including skills, talents, motivations and challenges in any area of life.

Astrology is far more than your Zodiac sign (Aries, Leo, etc.). Unlike your Zodiac sign, which is shared by millions, your birth chart is as unique as you are. It is your personalized map of life.

Individual sessions in Astrology and Tarot will be available any time after the classes during the week.

### Thursday, November 2

#### 9:00 – 10:30 am, Library – Astrology and Your Child's Needs

Parenting has its challenges. This class will give you an opportunity to learn how best to parent your children from the astrological perspective. Each child is unique, yet there are common needs you can meet according to their zodiac signs. Be prepared to bring their date, time and place of birth as well, and we will explore their potential together.

### Friday, November 3

#### 9:00 – 10:30 am, Library – Astro Cartography

Astro cartography is a method to project your birth chart onto the planet earth. It will show you places where you will thrive with regard to business, love and health. It will also show you the opposite. This is a helpful class, if you have to make a decision on where best to live, have a career, or where to retire.

### Saturday, November 4

#### 9:00 – 10:30 am, Library – Experience the Energy of the Planets

This is a unique way developed by me to experience your astrological chart and the current influences. You will experience and "feel" the harmonious or conflicting influences in your life. This class will give you surprising insights.
