Mii amo... "One's path, or journey."

-in Yuman,
the traditional Native American language of Northern Arizona

Inspired by the rich wisdom and traditions of Native American people, complemented by the beauty and energy of Sedona, Mii amo presents a luxurious spa experience where guests can find balance and harmony.

Our home, Boynton Canyon, is surrounded by the scenic seclusion of the Red Rock Secret Mountain Wilderness. Watching over Mii amo is a wind-carved rock formation called Kachina Woman. Native Americans say this is where "first woman" gave birth to their people.

The heart and soul of Mii amo is the Crystal Grotto, with a "kiva-like" design inspired by a traditional place of ritual. Used for contemplation over symbolic earth elements, this is where guests and staff are invited each morning to set their individual "intention for the day."

Near the Crystal Grotto, the indoor pool features a waterfall at one end, and at the other, a large lounging area framed by an open, wood-burning fireplace. Glass doors open onto the outdoor pool and deck with a whirlpool spa, and shaded seating areas offering spectacular canyon views.

Featuring fresh and nutritious contemporary cuisine, the Mii amo Café serves three meals daily with a continuously changing menu. The wine list includes premium selections of renowned organic wines. Along with indoor and outdoor seating and the option of dining at the communal table, guests can enjoy a Journey of Teas exploration or a cooking class in the exhibition-style kitchen.

Other classes and lectures — on topics ranging from traditional Native American healing methods to aromatherapy, healthy aging and feng shui — are held in the Mii amo library, where guests can retreat for journaling or reading.

Outdoors is an open lawn for yoga and exercise, which also takes place in the movement studio upstairs. Guests enjoy spectacular red-rock views in both settings, as well as on the treatment terrace with lounge chairs.

With the Secret Mountain Wilderness area surrounding Mii amo, the spa is the ideal starting point for hikes, mountain biking and nature exploration. Such excursions regularly embark from the Mii amo Boutique, which also features a dazzling array of treasures that capture the spirit of Sedona. Local artisans feature trunk shows of jewelry and clothes, and the consultation area offers expert advice on spa treatment products to take home.

Such choices make it all the more enjoyable to spend the entire day at the spa. Here at Mii amo, you'll find a variety of intriguing options wherever you look. We look forward to assisting you as you explore your life path and move forward with us.

Mii amo believes in the healing and spiritual power of natural botanical extracts and essential oils, and takes great pride in incorporating Mii amo's private collection, Eminence Organic Skin Care and Epicuren product lines into its treatments and therapies. Mii amo's signature line blends indigenous Sedona ingredients into facial cleansers, moisturizers and exfoliants, as well as body washes, scrubs, oils and lotions. Pure and wild-crafted essential oils of sweet orange, cedar and laurel infuse the body with warmth, and evoke the earthy yet energizing vibrations of Sedona's red rock formations. Other ingredients such as blue corn, jojoba and sage make these products unique to Mii amo and its organic, natural surroundings while honoring Boynton Canyon's Native American heritage.

Please check in at the Spa Front Desk 30 minutes prior to your appointment. This will allow you time to prepare yourself before your therapist greets you.

Spending time in the steam, sauna or whirlpool is a great way to relax before your treatment begins. 60 minutes \$150

Massage

From relaxing to therapeutic to all points in between, our massages are the perfect complement to any spa experience.

Swedish Massage

A classic massage that uses long, fluid strokes to relieve muscle tension and improve circulation, this technique will ease you into relaxation and release stress.

60/90 minutes \$150/\$220

Custom Massage

Our therapists tailor a massage based on your specific needs and their individual areas of training. A custom massage may include Swedish, Deep Tissue and Reflexology techniques, Reiki, Cranial Sacral, Lymphatic Drainage, and Neuromuscular Therapy. Please communicate at the time of booking and with your therapist to receive the most benefit from this treatment.

60/90 minutes \$150/\$220

Deep Tissue Massage

This type of massage focuses on releasing and relaxing areas of chronic tension. Using a variety of muscle release techniques, your therapist will target tense and painful areas to bring relief.

60/90 minutes \$150/\$220

Lymphatic Drainage

This work employs a light, rhythmic touch with pressure on the lymph nodes to increase the flow of fluid through the lymphatic system. It speeds up the detoxification process and stimulates circulation. This is a specialized technique for maintaining a healthy immune system. For the ultimate in detoxification, add our Herbal Detoxification Wrap after this treatment.

60 minutes \$150

Reflexology

Reflexology is based on the theory that the feet and hands are reflections of the entire body, and that by massaging and working pressure points in these areas, the entire body benefits. Your feet are wrapped in warm moist towels while reflexology techniques are performed on your hands. The reflexology points of the feet are worked to conclude the treatment.

60 minutes \$150

Shiatsu

Balancing the energy flow through the meridians of the body is the goal of this Japanese form of bodywork. Using finger pressure in combination with stretches opens the meridians to create a sense of balance and peace. Please wear comfortable workout-style clothing.

60/90 minutes \$150/\$220

Stones Massage

Healing with stones is an ancient form of therapy used by various cultures throughout the ages. Using smooth, heated basalt river rocks and Swedish massage techniques allows the body to deeply relax as the warm stones melt away the tension and stress of everyday life.

75 minutes \$220

Traditional Thai

This ancient technique is performed on a floor mat, with the therapist working you into yoga-like positions. Rather than kneading the muscles, the therapist leans into you and applies a deep, rhythmic pressure to almost every part of your body. Thai is a powerful massage that aligns the body's energies, improves circulation, and increases flexibility while opening the heart. You will be moved, loosened and stretched in this session, so please wear comfortable workout-style clothing.

90 minutes \$220

Table Thai

The therapist joins you on a massage table in this incredible treatment. The goal is to create space in your body, to harmonize, and to balance. You will be thoroughly stretched and kneaded, but will emerge re-energized, centered and relaxed. The results are often more intense than traditional deep tissue work. Please wear comfortable workout-style clothing.

90 minutes \$220

Aromatherapy Massage

Essential oils can have a profound effect on body, mind, heart and soul. Your therapist will custom blend essential oils that speak to your needs of the moment. After a gentle dry brushing, you receive a balancing massage with your personal oil. The 90-minute session includes a light wrap and a head, neck and scalp massage.

60/90 minutes \$150/\$220

Neuromuscular Therapy

Neuromuscular massage is often beneficial for injuries and chronic pain. It works at softening the muscles so that the therapist can move in more deeply to break up adhesions, allowing the muscles to become more elastic. NMT can help free the body of spasm and pain, increase its range of motion, and help prevent future injuries.

60/90 minutes \$150/\$220

Many Hands Massage

A nurturing, relaxing experience like no other is created by two therapists working in tandem. The gentle, slow massage techniques they employ allow you to release tension and control. This is an unforgettable treatment, one that gets you out of your head and into your body — one that allows you to truly let go.

60 minutes \$300

Vibrational Massage

Vibrational oils are tuned to the seven chakras, helping to relax the centers so that the energy can flow easily again. During this treatment, each chakra is massaged after you have received an introduction to each of the oils and an opportunity to breathe in their powerful aromas.

60 minutes \$150

Skin Care

The purest products are used to cleanse, hydrate and rejuvenate your skin. These indulgent treatments include a relaxing neck and shoulder massage, hand treatment, and the application of a natural sunscreen.

We also offer two unique treatments just for men. Both are incredibly relaxing yet effective, designed to combat the results of shaving and sun exposure. To prepare for your facial, we recommend you shave at least two hours prior to your treatment time.

With the 90-minute session, you will also receive an additional mask and a foot massage.

Ayurvedic Experience

According to Ayurveda (a 5,000-year-old Science of Life established in India), each of us inherits a unique proportion of three mind/body principles called Doshas. The three Doshas — Vata, Pitta, and Kapha — create our specific mental and physical characteristics.

Mii amo offers a complete Ayurvedic program that includes profound treatments and specialized consultations to help you practice a Dosha-balanced lifestyle.

Ayurvedic Lifestyle Consultation

We highly recommend starting any Ayurvedic experience with this powerful and insightful consultation that provides an in-depth look at your particular Dosha type. Our expert consultant will discuss lifestyle changes and additions that will support your well-being in all areas.

60/90 minutes \$150/\$220

Ayurvedic Facial Therapy

Ayurvedic Facial Therapy features ancient massage techniques. Not a traditional facial, but more of a ritual, this begins with a gentle cleansing and mask for your skin type. You then receive an East Indian massage of your face, scalp, hands and arms with soothing warm oils. Hydrating and nourishing facial serums are massaged into your skin, leaving you with a sense of well-being.

60 minutes \$150

Ayurvedic Facial Therapy with Shirodhara

Immediately following the ritual of Facial Therapy, your technician continues with a slow pouring of warm oil onto the forehead. This stimulates the pituitary gland, helps balance the endocrine system and relaxes the nervous system. The oils are then very gently massaged into your hair and scalp. The excess oil is squeezed out of the hair, and according to Ayurvedic wisdom it is advisable to leave the remaining oil in overnight to balance the Vata Dosha.

90 minutes \$220

Abhyanga

Abhyanga is a traditional Ayurvedic full body massage using two therapists who work in synchrony for a "light touch" rather than a deep tissue massage. This gently encourages toxin removal on a cellular level, resulting in a relaxed physiology and enhanced feeling of well-being. For the ultimate experience, add the 30-minute Shirodhara described next.

60 minutes \$300

Abhyanga and Shirodhara

Following the Abhyanga massage, a therapist pours warm oil onto the forehead to stimulate the pituitary gland, help balance the endocrine system and relax the nervous system. After a gentle scalp massage, the excess oil is squeezed out of the hair. Ayurvedic wisdom advises leaving the remaining oil in the hair overnight to balance the Vata Dosha.

90 minutes \$370

Simply Shirodhara

This simple yet profound treatment includes a clarifying mini-facial and stress-relieving shirodhara. After a cleansing masque and facial toning, your technician pours a Dosha-specific oil over your forehead in a slow, steady stream...lulling you into tranquil bliss. The oils are gently massaged into your hair and scalp, encouraging improved health and leaving you with a sense of balance and well-being.

60 minutes \$150

Vedic Meditation

Based on traditional Ayurvedic practices, Vedic meditation has the ability to deeply relax and heal the physiology while calming the mind. This allows stress to be released and provides a new approach to living a more balanced life. We highly recommend the Ayurvedic Lifestyle Consultation in conjunction with this meditation.

60 minutes \$150

Ayurvedic Yoga

This specialized yoga brings the mind and body back into balance. You will learn yoga poses, breathing techniques and meditation exercises to harmonize your dominant Dosha. To deepen your awareness of your particular Dosha, we recommend an Ayurvedic Lifestyle Consultation with this service.

60 minutes \$150

Ayurvedic Herbal Treatment

First the skin is dry-brushed to increase circulation and begin the exfoliation process. Next a blend of Indian herbs, which detoxifies and nourishes your skin, is applied and rinsed off. This is followed by a massage with a Dosha specific oil. You are then wrapped with steaming herbal sheets while you receive a head and neck massage.

90/120 minutes \$220/\$300

Anasazi Ubtan

Blending ancient Ayurvedic wisdom with botanicals from the magical Southwest, and using the format of a traditional Ubtan, this treatment begins with a massage specific to your Dosha. An herbal paste of indigenous materials, including juniper berries and chaparral, is massaged into your skin to remove the excess oil, and to purify and exfoliate the skin. After you have showered off the Ubtan, we apply Mii amo's signature Juniper Orange Spice body lotion to leave you feeling hydrated and refreshed.

60 minutes \$150

Dosha Balancing Wrap

Specific oils are chosen to balance your specific Dosha of Vata, Pitta or Kapha. First the skin is lightly brushed to allow the exotic, aromatic oils of India to deeply penetrate during the massage that follows. Then you are cocooned in warm, herbal infused sheets while you receive a head, neck and scalp massage.

60 minutes \$150

Prices do not include gratuities or tax.

Body Treatments

These signature treatments are for those who want to cleanse, exfoliate, detoxify and nourish the skin, body and soul.

Blue Corn Body Polish

A Mii amo signature, this treatment combines regional elements with the power of water for a truly refreshing experience. Native Americans used ground corn to cleanse and purify the skin. We blend blue corn with mineral salt crystals and oil to make a vigorous scrub, which is applied and massaged off under the seven Vichy showerheads for the ultimate in relaxation and hydro-therapeutic benefit. We finish with an application of our signature body lotion, leaving you rehydrated and renewed.

60 minutes \$150

Herbal Detoxification Wrap

We begin with a light, dry brushing to encourage lymphatic flow, then wrap you in herbal infused sheets to create your own private sweat bath. As the layers of the wrap are slowly unfolded, light bodywork is performed, gently bringing your core temperature back to normal. This is a perfect treatment to combine with lymphatic drainage for total systemic detoxification.

60 minutes \$150

Sedona Clay Wrap

This unique high desert treatment begins with a light exfoliation and a generous application of our mineral-rich Sedona clay. We have enhanced the already powerful detoxifying, anti-inflammatory properties of the clay with the addition of cocoa powder. Cocoa is a softening, smoothing antioxidant agent that heals and protects while its delightful aroma brings a sense of simple pleasure. After you have showered off the clay, we apply a mineral-rich oil or lotion infused with native herbs to leave you glowing and feeling grounded. The 90-minute treatment adds a 30-minute massage.

60/90 minutes \$150/\$220

Rosemary Body Scrub

This treatment begins under the waterfall of seven showerheads on the Vichy table with a scrub containing sea salts, sugar, magnesium crystals and a moisture sealant for extraordinary exfoliation and maximum hydration of the skin. Then your body is treated with an application of rejuvenating enzyme lotion with fresh rosemary to invigorate and revitalize. This is an excellent treatment for dry, dull or sun-damaged skin.

60 minutes \$150

This treatment begins with a gentle sea salt exfoliation to prepare your skin for a luxurious butter crème containing jojoba and shea butter, which is gently applied. Your body is then wrapped in warm blankets to allow the rich crème to penetrate more deeply, providing unsurpassed moisture and protection for skin that has to cope with the effects of stress, pollution and aging. This Reiki session starts a cleansing process of blockages that can influence the physical body, as well as the mind and emotions. Toxins that have been stored in the body are released, along with feelings and negative thought patterns that are no longer useful. A three-step process, beginning with an Aura Clearing, followed by a Reiki Healing Attunement, and concluding with a hands-on Reiki treatment, offers a powerful combination of Reiki that encourages faster integration of these energies.

Circle of Power

The stronger our essence is, the stronger the energy that radiates from us and surrounds us becomes. When a person becomes disconnected from their true essence, their life's journey becomes unauthentic. This session helps an individual recognize when they are not in alignment with their own truth and to honor all aspects of the whole. The three steps of this process are: reclaiming power through sharing one's story and being fully heard, viewing areas of one's life which are not in alignment with one's essence, and finally integrating strategies to allow for a more authentic path of living to unfold. This session empowers guests to reclaim all parts of themselves, even parts they have set aside or not recognized, so they can begin to move from the wholeness of their being in everyday life.
